

We deliver high quality solutions for the right price.

WELDED FABRICATIONS

We love to take on a project. Aside from production parts we have constructed a number of one off fabrications such as a 8ft stainless steel ball made out of keys for a care home in Willenhall to our dragon made out of filler cap components. We have constructed bespoke kitchen furniture to ornamental security gates. So if you have a project and need a knowledgeable, friendly team to help then give us a call.
